

Job Title: **Approved Electrician**

Department: Electrical – **Industrial**

Location: Site based/mobile and able to work overtime/weekends and abroad if required. Ideally located in West Yorkshire.

CJ Connally's are currently recruiting for an Approved Electrician to join their team. **You will need to have previous experience of installations within an industrial environment. You will need to have experience of industrial controls and a good understanding of schematic drawings.**

You will already be used to working unsupervised to complete contracts within varying timescales. Apprentice served, you will also possess the necessary qualifications to prove your competence.

Personal Specification

- Be able to communicate effectively at all levels.
- Be of an adequate level of physical fitness for the tasks required by the role.
- Be prepared to work in a flexible manner to fulfil the needs of the business.
- Be professional and corporate in your every-day activities.
- Have an enthusiasm for your role, keeping up to date with any regulations and training required.
- Honest, reliable and trustworthy in nature, punctual with good time keeping abilities.
- Organised and tidy in your approach to practical work.

Essential Qualifications/Skills Required

- Hold a valid, appropriate UK driving licence.
- **Industrial installation experience specifically capable of working on control panels/control systems.**
- **Essential good knowledge of schematic drawings**
- Have undergone an Apprenticeship or equivalent training and had practical training in electrical installation work.
- Hold Level 3 NVQ Electrotechnical Services qualification or equivalent.
- Hold Level 3 Certificate of Electrical Installations (inspection, testing and certification of electrical installations) or equivalent. 17th Edition IEE Wiring Regulations.
- Obtained Achievement Measurement 2 qualification (AM2)
- Have thorough working knowledge of the National Working Rules for the Electrical Contracting Industry, the current Wiring Regulations BS7671 and Construction Industry Safety Regulations.
- Have knowledge of the most economical and effective layout of electrical installations.
- At least 2 years experience working in Industrial markets/organisations.

Desirable Qualifications/Skills Required

- Demonstrate competence in Inspection & Testing; City & Guilds 2391 or equivalent.
- Demonstrate experience in completion of Risk Assessments.
- CSCS Health and Safety qualifications.
